

# DRINKS

We want to offer great quality and taste and where possible, support our local brewers. We don't have the usual beers that you see in every pub and restaurant across the country, but do not be alarmed! What we do have is not just good, it's better! Our Rude lager and IPA has real flavour! Our REAL cider is from Iford which we alternate on tap between Wild Juice & Cloudgazer!

Rude Giant - Wylfe, Warminster

Iford Cider - Bradford-on-Avon

Below Brew Co - Bath

Salcombe Brewery - Devon (Not local, but our friends!)

We are proud of our wine selection, which although small, is bursting with variety. You will notice a small selection of Vondeling wine from South Africa. We have close ties with this lovely vineyard and their wine does not disappoint!
